Business Analyst with 3+ years of experience in manufacturing technology, specializing in MES/MOM and ERP delivery for factory environments. Hands-on track record from on-site requirement workshops through go-live and user training, with multilingual stakeholder management (Vietnamese, English, Chinese) and AI-augmented BA workflows.

EDUCATION

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY (HUTECH)

Ho Chi Minh City, Vietnam

Bachelor of Arts in English Language

Sept 2018 – June 2022

- Coursework: Linguistics & Communication Theory, Academic & Technical Writing, Cross-cultural Communication.
- Foundation in technical writing and cross-cultural communication directly applied to BA documentation and stakeholder facilitation.

PROFESSIONAL EXPERIENCE

AES VIETNAM

Ho Chi Minh City, Vietnam

Business Analyst — MES / MOM

April 2024 – Present

- Delivered BRD and FSD for 2 major MES projects, ensuring full alignment between client operations and system design.
- Implemented MES for 3 factory clients (Spartronics, PNJ, Unilever), improving operational efficiency by approximately 15% via workflow optimization and smart-factory integration.
- Designed mockups, wireframes, and Figma prototypes to visualize system workflows and operator UX; validated with users across multiple UAT rounds.
- Led go-live, user training, and pilot testing at manufacturing sites; supported pilot-to-production transition.
- Collaborated with Developers, QA Testers, and the IoT engineering team throughout the full project lifecycle in an Agile/Scrum setup.

LUMOS IS — ERP SOLUTION

Ho Chi Minh City, Vietnam

Business Analyst — Oracle Apex ERP

June 2023 – March 2024

- Gathered, refined, and documented user requirements in Business Requirement Specifications, aligning ERP scope with client business objectives.
- Designed and configured ERP functionalities on Oracle Apex using Agile principles — dashboards, reports, and modules tailored to customer requests.
- Deployed software during UAT phases, delivered end-user training, and resolved post-go-live issues via iterative system refinements.

FOUR HANDS LLC (REPRESENTATIVE OFFICE)

Ho Chi Minh City, Vietnam

Business Intelligence Analyst

September 2022 – May 2023

- Executed SQL queries against supply-chain datasets on Microsoft SQL Server to produce business reporting.
- Built Power BI dashboards and interactive reports for sales performance tracking and trend forecasting.
- Designed ETL workflows in KNIME Analytics Platform to identify missing data fields prior to product relaunch; conducted data validation and quality checks to ensure reliable insights.

SKALE ASIA

Ho Chi Minh City, Vietnam

Business Analyst Intern

May 2022 – August 2022

- Analyzed user behavior and product logic to produce data-driven recommendations for product improvement.
- Facilitated user-testing sessions and synthesized usability findings into actionable product feedback.
- Documented stakeholder requirements throughout the SDLC using Jira and Confluence in an Agile environment.

PROJECTS

SPARTRONICS MES (SMES) — AES VIETNAM

Dec 2024 – Jun 2025

- Built a custom SMES from scratch with IoT (FPC device) integration, enabling real-time monitoring across SMT production lines.
- Implemented process-route management, traceability, reporting, and QC modules; achieved 100% product traceability and live SMT visibility.

UNILEVER — THINGWORX PRODUCTION MONITORING (AES VIETNAM)

Dec 2024 – Present

- Conducted site surveys across 4 production lines; identified 150+ critical machine-data tags and mapped end-to-end data flow from sensors to operator dashboards.
- Designed Supervisor and Operator monitoring screens, defined SCADA logic, color-coded alerts, and produced handover documentation for system adoption.

PNJ — APRISO ELECTROPLATING INTEGRATION (AES VIETNAM)

Apr 2024 – Apr 2025

- Digitized electroplating workflows on Apriso (Dassault) with automated surface-area calculation; reduced manual operations by 40%.
- Cut rework errors by 25% by integrating SCADA-to-Apriso data flow for real-time parameter tracking and coating-thickness control.

VT TECHNICAL — ORACLE APEX ERP (LUMOS IS)

Jul 2023 – Dec 2023

- Delivered end-to-end ERP covering Sales, Inventory, Service, and multi-level Approval workflows on Oracle Apex.
- Mapped AS-IS / TO-BE processes via BPMN swimlanes; produced functional specs, UI/UX mockups, and a clean data-migration plan for go-live.

SKILLS & TOOLS

Business Analysis:	Requirement Gathering, BRD & FSD Documentation, User Stories, FIT/GAP Analysis, UAT Management, Stakeholder Management, Jira, Confluence.
Design & Modeling:	BPMN, UML, Wireframing & Prototyping (Figma), Visio, Draw.io, User-flow Design.
Technical:	SQL (MS SQL Server), Power BI, Oracle Apex, MES/MOM Systems, Apriso (Dassault Systèmes), SCADA Integration, ThingWorx, KNIME, IoT concepts.
AI-Augmented BA:	Prompt engineering, BRS drafting and UAT case generation with Claude / ChatGPT, AI-assisted BPMN, HTML prototyping with Claude Code.
Methodologies:	Agile & Scrum, Waterfall, SDLC, AS-IS / TO-BE Process Modeling.

LANGUAGES

Vietnamese — Native · **English** — Fluent (professional working proficiency) · **Chinese** — Intermediate
